(in progress)

PROFILE

Frontend developer with 1+ year of experience in developing Single Page Applications using TypeScript, JavaScript, React, Redux, Redux-toolkit, RTK Query.

I am constantly improving my skills in these technologies, and am also actively studying Next.js and React Native to expand my capabilities and achieve a higher level of professionalism in my work.

WORK EXPERIENCE

My work as a Front-End Developer May 2023 - Present

KinoPotok

Functionality: viewing products by categories and subcategories, working with a data array.

Task Manager

Functionality: adding, deleting, editing tasks, working with API, authorization.

Online store

Functionality: viewing products by categories and subcategories, working with a data array.

KEY RESPONSIBILITIES

- Team development, using GIT
- Creating custom hooks and reusable components.
- Architectural solutions for projects (distribution of UI, BLL, data access, and server).
- Full authentication process with registration, login, and password recovery.
- Form handling and validation.
- Creating private routes and redirects.
- Working with the server using Ajax (CRUD operations and data processing with RESTful).
- Pagination, search, filtering, and sorting functions.
- Image uploading.
- Refactoring to eliminate code duplication and fix errors.
- Creating reusable utility functions.
- Creating various modal windows.

EDUCATION

IT-INCUBATOR

Front-end developer 2025 (JavaScript, TypeScript, React, Redux (RTK Query))

National University of Shipbuilding named after. Admiral Makarov
Software Engineering
